

# CHLORINE FREE OXIDIZING SHOCK

## COMMERCIAL STRENGTH

60% concentration

## FAST ACTING

swim in 15 minutes

### ACTIVE INGREDIENTS

potassium monopersulfate .....	60%
other .....	40%
total .....	100%

NET WEIGHT **45 lb (20.4 kg)**

# precautionary statements

## **DIRECTIONS FOR USE:**

This product was designed to be used as a weekly pool treatment. Adding One Pound Per 10,000 Gallons will improve the chlorine efficiency, water clarity and overall pool water quality and enjoyability. Bathers can return to the pool 15 minutes after treatment.

**IMPORTANT:** Only add Pooluxe Non-Chlorine Oxidizing Shock to the pool after the pool is clean and opened for the season; having balanced the pool water and starting the season with a clean filter.

**WEEKLY TREATMENT:** Use as a supplement to increase chlorine efficiency weekly by adding one pound per 10,000 Gallons after a day of swimming in the pool. Run the pool pump and filter after adding chemicals to the pool for atleast 2 hours.

## **HOW DOES OXIDIZING SHOCK WORK?**

In a traditional pool care system, chlorine is used as a sanitizer to kill bacteria and as an oxidizer to oxidize organic wastes in the pool water. Unfortunately, 90% of the chlorine is most often used to oxidize organic contamination in the pool and only 10% is used to control the disease causing germs and nuisance algae. This product is designed to increase your sanitizer performance by oxidizing organic contamination in the pool.

## **PHYSICAL OR CHEMICAL HAZARDS:**

Strong Oxidizing Agent. Never add water to chemicals. Always add chemicals to water. Never mix chemicals together. Always add chemicals to the pool separately, with time in between the chemical additions if possible. Do not add this product to any chemical feeder. Contamination with moisture, organic matter or other chemicals may cause a violent reaction leading to fire or liberation of hazardous gases. In case of contamination or decomposition, do not reseal container. If possible, isolate container in well-ventilated area. Flood with large amounts of water.

## **STORAGE AND HANDLING:**

Keep dry and in original container. Store in a cool, dry, well-ventilated place. Do not store with chlorine, bromine, or liquid acids. Keep container tightly closed when not in use.

## **POOLUXE OXIDIZING SHOCK BENEFITS:**

- Improves Chlorine Efficiency
- Crystal Clear Water Quality
- Reduces Eye Irritation
- Reduces Chlorine Odor
- Will not Stain Pool Finishes

## **READ ALL PRECAUTIONS**

**BEFORE USE: CORROSIVE TO EYES, SKIN AND MUCOUS MEMBRANES. MAY BE HARMFUL IF SWALLOWED.** Avoid contact with eyes, skin and clothing. Wash thoroughly with soap and water after handling. Avoid breathing dust. Wear goggles and gloves when handling. Use only in swimming pools and spas. Add only when no bathers are present.

### **FIRST AID:**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**IF IN EYES:** Hold eye open and rinse slowly with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes., then continue rinsing. Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center/doctor for treatment.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. Call a poison control center or doctor for further treatment advice.

**IF SWALLOWED:** Call poison control center or doctor immediately for treatment. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.
