Properly balanced water prevents corrosion and staining. It will also optimize the performance of your sanitizer. Using Spaluxe Calcium Increaser as needed, simplifies the balancing act to help achieve properly balanced water. This product can be used in combination with bromine, chlorine, mineral sanitizers, and other spa chemicals.

DIRECTIONS FOR USE:

Read entire label and use in accordance with directions and caution statements. DO NOT dissolve this product prior to use. NEVER MIX DIFFERENT PRODUCTS TOGETHER IN THE SAME BOTTLE OR PAIL. ADD THIS PRODUCT DIRECTLY TO THE SPA WATER.

1. Turn on the circulation system
2. Add 1 ounce (2 tablespoons) for every 500 gallons of water to increase calcium hardness 10ppm. Broadcast product over the surface of the water. Spa may be used immediately after application
3. Wait two hours and retest calcium hardness.

PRECAUTIONARY STATEMENTS

Harmful if swallowed. Avoid contact with skin or eyes. Wash hands thoroughly and immediately after use. Use this product only in a well ventilated area. When using other products in conjunction with this product, follow the instructions on those products. NEVER mix different products together in the same bottle or pail. Buyer assumes all responsibility for safety and use not in accordance with the directions.

FIRST AID

IF IN EYES: Rinse immediately with plenty of water for 15 minutes. Do not apply neutralizing agents. Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Cold water may be used. Get medical attention immediately. Acute symptoms after contact: inflammation/damage to eye tissue. Corrosion of the eye tissue.

IF ON SKIN OR CLOTHING: Wash with soap and water. Get medical attention if irritation develops or persists.

IF INHALED: If adverse effects occur, remove to uncontaminated area. If symptoms of overexposure occur, get medical attention.

IF SWALLOWED: Do not induce vomiting unless instructed by a medical professional. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

STORAGE AND DISPOSAL

Pooluxe Chlorine Remover should be stored in a cool, dry place, away from heat, moisture, and acids. Keep it in sealed containers to prevent clumping. Wear gloves and safety glasses when handling, and ensure proper ventilation.
