

alkalinity increaser

for raising alkalinity
in swimming pools

ACTIVE INGREDIENTS

sodium bicarbonate 100%

CAUTION

keep out of reach of children

HARMFUL if swallowed

*see back label for precautionary statements

NET WEIGHT 25 lb (11.3 kg)

precautionary statements

DIRECTIONS FOR USE:

Measure the current Alkalinity level in your pool using a reliable test kit. **Add 1.5 Pounds Per 10,000 Gallons of water to increase the Alkalinity level by 10PPM.** Add product directly to skimmer, while the pool pump / filtration system are running. This will quickly dissolve and disperse the product into the pool water. Run the pool pump and filter, then retest the water 12 to 24 hours later.

IMPORTANT: Only add Pooluxe Alkalinity Increaser to the pool if the Alkalinity test shows to be out of range on the low end. Under 80PPM of Alkalinity, add this product. Ideal Range is 80 - 120PPM.

HOW DOES AKALINITY INCREASER WORK?

Alkalinity increaser works by adding sodium bicarbonate to pool water, raising the total alkalinity and helping to stabilize pH levels. This prevents pH fluctuations, reduces the risk of corrosion and scaling, and protects pool surfaces and equipment. It ensures the water remains balanced, clear, and comfortable for swimmers.

PHYSICAL OR CHEMICAL HAZARDS:

When heated, material emits irritating fumes. Hygiene Measures: Handle in accordance with good industrial hygiene and safety procedures. Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking and again when leaving work.

STORAGE AND HANDLING:

Pooluxe Alkalinity Increaser should be stored in a cool, dry place, away from heat, moisture, and acids. Keep it in sealed containers to prevent clumping. Wear gloves and safety glasses when handling, and ensure proper ventilation. Clean up spills promptly and keep out of reach of children and pets.

Packaged By:
Pooluxe Products
1041 Glassboro Road, STE A3
Williamstown, NJ 08094

POOLUXE ALKALINITY INCREASER BENEFITS:

- **Boosts Alkalinity**
- **Reduces Risk of Corrosion**
- **Enhances Water Balance**
- **Stabilizes pH Levels**

READ ALL PRECAUTIONS

BEFORE USE: CORROSIVE TO EYES, SKIN AND MUCOUS

MEMBRANES. MAY BE HARMFUL IF SWALLOWED. Avoid contact with eyes, skin and clothing. Wash thoroughly with soap and water after handling. Avoid breathing dust. Wear goggles and gloves when handling. Use only in swimming pools and spas. Add only when no bathers are present.

FIRST AID:

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. Obtain medical attention if irritation persists.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Brush off loose particles from skin. Rinse immediately with plenty of water. Obtain medical attention if irritation develops or persists.
SPECIFIC TREATMENT: Wash with lots of water.

IF INHALED: When symptoms occur: go into open air and ventilate suspected area.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Seek medical attention if a large amount is swallowed.
